

Mr. Nelson's room 115 was renowned for its colorful walls and interesting podiums.

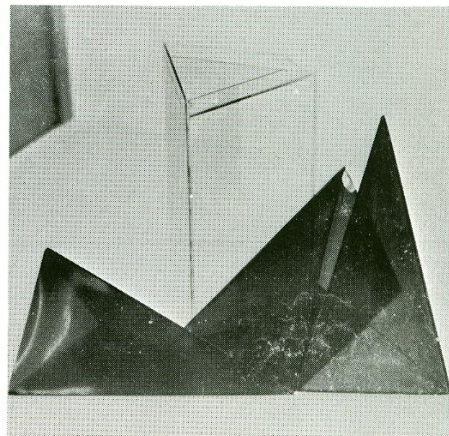

Jonathan King, right, and Jerry Lopez wait for the computer's answer. "It says beware of the Ides of March."

"... and  $x^3 3x 9$  got mixed up with  $x^4 2x^2 5$  and they ran off together."

"UHF is similar to VHF because they both have Crusader Rabbit." Sandy Nauls

No walls a prism makes.
